## Foundation For Economic Education

A weekend of stimulating discussions by visiting founders and staff of The Foundation for Economic Education (FEE) was just concluded at Avila.

The Foundation was founded in 1946 as a nonpolitical and nonprofit educational institution to combat the prevailing trend toward state intervention in human affairs. FEE's method is to study and explain the alternative to intervention: the free market, private property, limited government concepts, and the moral and spiritual principles on which this country was founded.

Seminars are designed to offer an introduction to the philosophy of government and the "Austrian School" approach to economics. FEE seminars are specifically designed for those who are of the opinion that the most productive approach to economic problems is through the study of individual human action — that is, the study of why and how men act in the exchange of their goods and services.

Speakers were Leonard E. Read, Dr. George C. Roche, III, and Reverend Edmund Opitz. Mr. Read, founder and president of the Foundation is a prominent author and lecturer. Dr. Roche, former professor of history and moral philosophy at Colorado School of Mines is an outstanding scholar, speaker, and author. Reverend Opitz is an ordained minister and the author of several articles, pamphlets, and books.

Sister Rose Mary Willett is to be commended for planning and hosting this splendid Seminar.

## At Long Last!

After almost three years of construction, Avila's new dormitory has essentially been completed. The first and second floors are now occupied by 75 students. The project originally began in late 1968. Progress was steady until it was interrupted in April by the 1969 construction strike. In September of that year things once again got underway only to be slowed by winter. On April 1, 1970 progress was again stopped by another strike, this time for five months. Finally on February 18, the students were able to make the transition from temporary quarters to the new dormitory.

While the last of the debris is being cleaned up, work progresses on the landscaping, parking lot, and tennis courts.

Pictured is Debbie Scheerer (Grandview) moving into her new college home. Needless to say, faculty, staff, and students alike are indeed happy to have everyone on campus where "the action is."

## World Consciousness Day

Avila's Peace Institute hosted World Consciousness Day on campus, February 12. Problems of world-wide concern were discussed: peace, population, U.N. Charter revision. Speakers included The Honorable William Hungate, U.S. Representative for Missouri. A critique followed each session.

Avila College students are discussing mundializing the campus. "Mundialization", means a declaration of world-consciousness. Signs of mundialization are the flying of the U.N. flag alongside the Stars and Stripes, voluntary contributions to the U.N. Special Fund, and twinning with a like institution in another country that has likewise declared itself mundialized. Pictured are Pat Wosman, Elaine Strobe, and Gigi Gaines with Hon. Wm. Hungate.
